1) How long have you been using Biodose?

2) Why did you choose Biodose? For example, did you have a problematic audit where medication management was highlighted?

3) What have you, your staff and your residents gained from using Biodose? And how has this made you feel?

a) You - as care home manager / the person responsible for medication management

For example, do you have more peace of mind knowing that if your care home were audited, your medication management processes are robust?

b) Your staff

For example, are staff less stressed because round times are quicker? Do you think the job is more pleasant for them because medicine rounds are less messy, with no more pouring liquids from the bottle?

c) Residents

4) What do you like most about the product?

5) How easy-to-use do you find Biodose?

6) How has medication management improved since using Biodose?

a) Have you cut round times? If so, by how much (approximately)?

b) Do you think you have fewer errors? If so, by how much have you improved?

c) Has the feedback from CQC audits improved? If so, what was it before and what is it now?

7) Have you any other comments about how Biodose has helped your home?

From all at Biodose, many thanks for your time and feedback
